WHO WE ARE!

The Society of Knowledge, Inc. (the "Society") is an interdenominational spiritual, religious organization. The Society was founded in 1979 in New Orleans, Louisiana. Its members came from various different religious and spiritual backgrounds with different beliefs. The members, however, did share one thing in common. They all agreed there was a being, an energy, a force that was and remains almighty! Regardless of the name by which one may come to know that being (God, Yahweh, Jesus, Allah, Buddha, Krishna, etc.) to this day, our members are able to fellowship knowing there is an almighty presence. God is Almighty!

The Society is a nonprofit organization with 501(c)(3) status. At present we have five Centers where our members are able to fellowship and reflect upon that which is almighty.
